

Sample PDF for FastAPI / Spring Boot Route Testing

This file is intentionally simple and safe to use when testing a PDF upload endpoint in Swagger, Postman, FastAPI, or Spring Boot.

Field	Value
Document Type	PDF upload test file
Student Name	Test Student
Course	Learning Management System
Purpose	Route and file validation testing
File Format	application/pdf

Test content

You can upload this PDF to verify that your endpoint accepts multipart/form-data, validates PDF content type, stores the file, or returns the expected API response.

This document contains no sensitive or personal information.
